# EC3S-32GB

(32GB flash memory card of express card figure to USB3.0 Powered-B interface.)

With getting disappeared of the interface of Express Card that may beset many **DV** users with a question " **How to read flash memory card without a Express Card slot**". A new product **EC3S** from Bplus Tech. will completely solve this problem in one time. EC3S has **32 GB** memory space, and could be plugged in DV camera directly to be an extra storage. And a USB 3.0 slot at end side of EC3S could be connected to your PC or laptop of the other USB 3.0 slot via a USB cable, even support hot-swapping. So now you don't need an additional Express Card reader, using our EC3S that is a most convenient " bridge " between DV and your computer to download and edit your digital-films casually.
