

MM4U-DB4U

M.2 Key B 3042 Card to M.2 2230 2242 Card Vertical Extender with SIM Card Slot

Product > M.2 interface > MM4U-DB4U

MM4U is vertical extender from M.2 Key B Card slot to M.2 Card together with DB4U. It is very convenient especially to apply "3042 size" M.2 Card module to "2230 / 2242 size" M.2 Card slot.

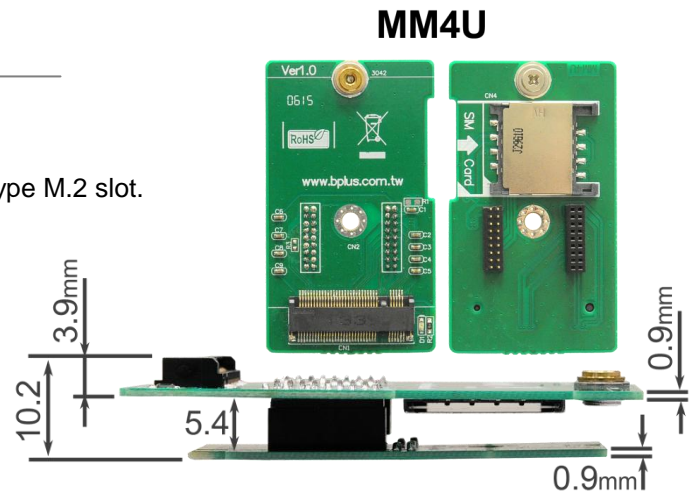

As MM4U has a SIM card slot, wireless M.2 Card modules which require SIM Card such as 3.5G HSPA / 4G / LTE can be used, even though original M.2 slot is not connected to SIM card slot.

Combination of MM4U and DB4U is the best solution for 3G/LTE M.2 cards evaluation.

Specifications
