

# PP3380-AB

## (USB3380-AB Evaluation Board)

The PP3380-AB is evaluation board for USB 3380-AB, a PCI Express Gen 2 to USB 3.0 SuperSpeed Peripheral Controller. It features one PCI Express Gen 2 x1 port and one USB 3.0 SuperSpeed client port. The PP3380-AB provides a matching bandwidth at 5 GT/s between the PCI Express Gen 2 bus and the USB 3.0 SuperSpeed bus. The controller can easily add a USB 3.0 client port to an existing PCI Express system, as well as convert an existing PCI Express function (endpoint) to a USB 3.0 product. The USB 3380 can configure the PCI Express port as one x1 upstream port or one x1 downstream port. The flexibility allows different system configurations to achieve the maximum performance of the product.

### Specification:

#### USB 3.0 Client Interface

- ◆ USB 3.0 Specification
- ◆ 1 upstream port
- ◆ Supports SuperSpeed, Hi-Speed, Full-Speed modes
- ◆ Four Descriptor-based DMA channels for automatic data transfers
- ◆ Supports USB Duet® Technology
- ◆ USB Auto-Enumeration Technology
- ◆ Support for Bulk, Isochronous, and Interrupt Endpoints
- ◆ USB Power Management USB 3.0 link power management states: U0, U1, U2, U3
- ◆ USB 2.0 link power management states: L0, L1, L2

#### PCI Express Interface

- PCI Express Gen 2 (5Gbps)
- Electrical Compliance to PCI Express Base Specification r2.0
- PCIe interface and integrated root complex provides two configurations:
  - one x1 upstream port
  - one x1 downstream port
- PCI Express Power Management  All link power management states: L0, L0s, L1, L2/L3 Ready, and L3
- Device states: D0 and D3(hot & cold)
- Vaux, Wake#, Beacon support
- 256 byte maximum payload size
- ExpressCard 2.0 compliance

**Note:** Software development is **required**. To obtain RDK, please contact PLX Sales Representative or Distributor;

## Applications

Target applications for the **PP3380-AB** adapter as a PCI Express endpoint include PCs, servers, docking stations, printers, and PCI Express embedded systems.

#### Add a USB 3.0 Client Port to PCI Express-Based Systems

The PP3380-AB can be used to easily add a USB 3.0 client port to any PCI Express based embedded system. As a PCI Express endpoint, the USB 3380's Standard PCI Express interface connects directly to any PCI Express bus.

#### Add a USB 3.0 Client Port to ExpressCard-Based Systems

The PP3380-AB can be used to easily add a USB 3.0 client port to any ExpressCard based embedded system.

As a New manufacturer of quality computer connectivity products since 2009/Mar, BPLUS technology brings to market a broad range of upgrade products. These products bridge the connection between Desktop/Notebook systems and external peripherals.
