

SSDM2

M.2 SSD to SATA Adapter

Product>M.2 interface>SSDM2

First Impression

SSDM2 adapter enables using of M.2 SSD as a direct replacement for the 2.5" HDD in the notebook. Once installed, the M.2 SSD behaves like the 2.5" HDD with low power consumption, fast access time and completely shock resistant.

Function

- Allows user to use M.2 SSD as standard SATA SSD in the Desktop or Laptop
- Support M.2 Socket 2 SSD type 2230, type 2242, type 2260
- Support M.2 SSD with Key B including Key B+M
- Support Hi-Speed SATA3/ 6Gbps mass storage interface.
- Transparent to the operating system and does not require any software drivers
- Dimension (2.5" Enclosure): D x W x H = 100 x 70 x 8 (mm)
- Module: Support Low Profile / Standard Height PCIe Slot

System Requirements:

- ◆ System supporting SATA 7pin data port and SATA 15pin power.
-
